

We are excited to share the latest achievements from Tech4Gov in the month of February! The tireless commitment of our team has resulted in the successful completion of deliveries, strengthening our relationships with government stakeholders and partners. We express our sincere gratitude for your unwavering support, and we are resolute in our commitment to excellence. Stay tuned for forthcoming updates and groundbreaking developments as we persist in pushing the boundaries of innovation at Tech4Gov!

Milestones – February’2024

Services :

1. IAS Sanjay Singh (ED, SHSB) and Dr. A.K.Shahi (SPO, HWC cell) commended the well-organized arrangement of the Dashboard in **Sukrtya**, particularly for incorporating their historical assessment data.
2. Training Conducted for DM&E officers and Districts Coordinators for **Baal Hridya Yojna** Backlog Entries, then Entries are being started by the respective districts. As of now, a total of 805 entries have been recorded across the state.

Products :

1. A training session was conducted for State Officials of ICDS on **BADI** app prior to the pilot implementation in various districts. This aimed to equip them with the necessary skills to support lady supervisors in seamlessly accessing the application and establishing one-down master trainers.

Highlights – February’2024

In addition to the aforementioned milestones, the Tech4Gov team has conscientiously dedicated efforts to address the following tasks:

1. A collaborative meeting had conducted with BMGF, PATH, and the Kaizen team to deliberate on the six-month plan for Supply Chain Management intervention within the Health Department of Bihar. During the meeting, responsibilities were allocated among the teams.

2. **Mr. Chandan** played a pivotal role in guiding the tech team of PSL Big Bet to address all vulnerabilities identified during the security audit of the web portal <https://rwpf.in/> (A platform created by the Government of India, under Ministry of Jal Shakti, Department of Drinking Water and Sanitation). Remarkably, he efficiently resolved all queries in a single meeting that were initially anticipated to take a month.
3. In addition, **Mr. Chandan** has ingeniously developed a webpage that facilitates the conversion of data from Json to Excel format, enabling users to download the list seamlessly. This feature has been seamlessly integrated with the State HMIS, BHAVYA, incorporating user validation for enhanced security and functionality.
4. **Mr. Chandan** has also developed an internal portal (<https://tech4gov.info/>) with the aim of fortifying foundational activities and consolidating comprehensive information related to the Tech4Gov team.
5. After successfully onboarding the vendor for the Sukrtya App, the Mass Drug Administration campaign was launched with the assistance of the Sukrtya App to manage the inventory of filarial diseases.
6. Through the unwavering dedication and collaborative efforts of **Mr. Rupesh** and **Mr. Chitranjan**, the tender for Bihar Nursing Registration Council has been successfully published. Their consistent commitment and teamwork have played a pivotal role in achieving this significant milestone.
7. **Mr. Manish** persistently worked on resolving various issues related to mapping, encompassing roles, geographic elements, and institutional structures at both the L1 and L2 levels within the Assam and Bihar **PGR** System. Additionally, he actively gathered requirements for the PGR within the context of the **Gandhi Fellowship program**.
8. **Mr. Sourabh** played an active role in resolving bugs identified during the backlog entries entered by District Coordinators under the BHY Portal, ensuring seamless access to the system. **Ms. Nitika** played a pivotal role in guaranteeing the successful delivery of a high-quality and reliable application intended for statewide implementation. Her adept management and collaborative efforts were instrumental in maintaining stringent quality standards throughout the project's lifecycle, ultimately contributing significantly to its overall success.
9. **Mr. Mayank** has organized a presentation to reveal the details of the Integrated Litigation Management System (iLMS) to the Health Department, Lucknow (Uttar Pradesh). The date for the presentation will be determined by the department.
10. Concluding the PRAGATI 2.0 documentation phase, **Mr. Mayank** has meticulously defined User Personas, capturing the distinct profiles of the user base. Additionally, the comprehensive process of Requirement Gathering for Product Development has been completed through collaborative efforts with team and partners.
