

Highlights – March'2024

1. Participated in the inauguration ceremony of the **Mission Unnayan** program targeting Bihar's nurses, led by the Deputy Chief Minister of Bihar. The event was honored by the presence of Mr. Pratap Amrit, Additional Chief Secretary of the Health Department, along with Executive Director (ED), State Program Officers (SPOs), and representatives from various healthcare organizations such as Jhapiego, Piramal, Astrika Foundation, and IHAT.
2. Introduced "**Ni Tag**" - an innovative Android application meticulously crafted to revolutionize the nursing landscape in Bihar. With "Ni Tag," seamlessly tag every nursing institute across Bihar on the Bihar Map, ushering in unprecedented accessibility and organization. This groundbreaking app not only facilitates tagging but also empowers users to effortlessly update vital information pertaining to each institute, including their Name, Address, and intricate details about Chairpersons and Principals.
3. The latest version of the **BADI** App has been disseminated to the ICDS team, and enhancements have been made to the web portal, including user-level access and a dashboard feature.
4. Efficiently presented the **iLMS** portal to the Joint Director, Legal at DGMH, UP on March 19th at the HOPE Conference room, garnering satisfaction and interest to proceed from the official, aiming to elevate discussions with the Director of Administration
5. Completed problem articulation and proposed potential solutions for PRAGATI 2.0, and also initiated BRD composition to formalize the project's scope and objectives.
6. The User Personas for the BNRC Platform have been effectively finalized, alongside the integration of Functional Requirements into the BNRC Request for Proposal (RFP). These critical milestones were further discussed with all vendors during a comprehensive pre-bid meeting held at Beltron, setting a robust foundation for the project's progression.
7. The issues with the Assam PGR dashboard have been successfully addressed, along with the resolution of the report downloading problem
8. Attended the DPG Tech Fusion Event in Pune, focusing on broadening understanding of Digital Public Goods (DPGs) and gaining insights into the diverse spectrum of stakeholders actively engaged in this dynamic domain.
