

We're excited to share our latest Tech4Gov highlights of September Month! Our team's dedication led to successful project completions, building trust with clients and partners. We appreciate your support and remain committed to excellence. Stay tuned for more updates and innovations from Tech4Gov!

Milestones – September'2023

Services :

1. After a complete testing and process demonstration, responsibility for managing and advancing the development of HDTS (Nursing Portal) has been entrusted to the NIC team as directed by Mr. Pratyaya Amrit (ACS, Health Department)
2. The successful demonstration of the BHY portal to Mr. Satish Ranjan (OSD, Health Department) and the RBSK Team marked a significant achievement for our project. The presentation showcased the portal's capabilities and functionalities, leaving a positive impression on our stakeholders.

Products :

1. Our team has started discussion on the new product i.e. PRAGATI 2.0 in consultation with our Education Team and development partner i.e. EY.

Highlights – September'2023

In addition to the mentioned milestones, the Tech4Gov team had diligently worked on the following items:

1. Security Audit of Portal for Baal Hridya Yojna has been done and respective certificate has been issued by Cert-in emplaned Agency, now it is ready for official launch.
2. Mitigated Gap of 14 lacs records between state Covid portal and ICMR portal by our Team.
3. Due to shifting of Server room, Complete testing of Bihar PGR has been performed and collaborated with the development partner for Bugs.

Moment of the Month

Mr. Rupesh has visited Assam, and demonstrated PGR 2.0 portal to Ms. Laxmi Priya, IAS (MD, NHM(Assam)) with Piramal Swasthya Team of Assam. She agreed to start training to their Nodal officers. Once training will be completed, the new developed PGR can be roll out across the State.
